The concepts of discrete time signals and their transforms are organized in four chapters and two chapters are devoted for digital filter design. One chapter is devoted to each topic in digital signal processing like finite word length effects, multirate DSP, spectrum analysis, digital signal processors and applications of DSP. Considering the highly mathematical nature of this subject, more emphasis has been given to problem-solving methodology. Each chapter provides the foundation and practical implications with a large number of solved numerical examples for better understanding. Salient Features Clear explanation of concepts with appropriate diagrams. Additional explanations for solutions and proofs are provided in separate boxes. Different types of fonts for text, proof and solved problems for better understanding. Step-by-step presentation of proofs and solved problems. Important concepts are summarized at the end of each chapter for quick reference. MATLAB programs related to this book are available free on CBSiCentral App. Publisher CBS Publishers & Distributors Binding Paperback Size 6.75X9.5 Year 2021 Edition 3rd Edition Pages 1136 Author A Naqoor Kani About the Author A Naqoor Kani BE, MS is a multifaceted personality with an efficient technical expertise and management skills. He obtained his BE in EEE from Thiagarajar College of Engineering, Madurai, and MS (Electronics and Control) through Distance Learning Program from BITS, Pilani. He started his career as a self-employed industrialist (1986-1989) and then changed his career to teaching in 1989. He worked as Lecturer in Dr MGR Engineering College (1989-1990) and as Assistant Professor in Satyabhama Engineering College (1990-1997). He started his own coaching center for BE students named Institute of Electrical Engineering which was renamed as RBA Tutorials in 2005. The well-known companies currently run by him are RBA Engineering (manufacturing laboratory equipment and microprocessor trainer kits), RBA Innovations (involved in developing projects for engineering students and industries), RBA Tutorials (conducting coaching classes for engineering and GATE students) and RBA Publications (publishing of engineering books). He is an eminent writer and has written thirteen engineering books. Only registered users can write reviews. Please, log in or register
